**The location:** this year we have chosen to organize the Tournament at the prestigious RDS Stadium (ex 105 Stadium) once again, in Piazzale Pasolini, n. 1 RIMINI. Many of you have been in the past editions of the Bestfighter Tournament and many others have been able to appreciate the structure during the WAKO World Cups for Cadets & Juniors 2014.

**Referees Team:** As you know, for many years we try to have a high standard in the quality of the Referees who are summoned to Bestfighter. ## An Italian Federation relevant Project Tatami New Division / Pre – Competitive Kids Promotional Sports – Three Point

The Italian Federation's Competition Committee, having heard the favourable opinion of the Federal Medical Commission, proposes the following sports promotion activity called Three Point. The promotional youth activity, not competitive, is divided by age and the chosen path, this means that we will have a promotional activity from 6 to 10 years, one between 10 and 13, in addition to the path of the CONI trophy from 10 at the age of 14. For what concerns the promotional activity from 6 to 10 years, it takes the name of Three Point (shortly TP). So we will have: TP point fighting, the technical rules are the same as point fighting; TP light contact, TP kick light, all linked to the technical regulations of the disciplines to which they refer but with the constraint of being able to bring only 3 consecutive techniques, after which the stop will be decreed anyway. Being a demo fight, the management of the meeting by the referees and / or the appointed figures will be different from that used for the age classes that perform competitive activities. It is important to remember that these activities are PROMOTIONAL and are considered as a start-up to sport, so special attention must be paid to the approach, to the language, to the gestures of all the people involved. It is addressed to the technicians of companies with the desire to sensitize them to the nature of the project, the result of a great work by the Federation. As far as clothing is concerned, we adapt to the same standard of the disciplines of reference. The same regulation and the same purpose will also be valid for the 10/12 age group. As You know in Italy is not possible compete for our kids, please support this Italian Federation Project, it's really important for our kids. More details in the next page.

## An Italian Federation relevant Project Tatami New Division / Pre – Competitive RULES Kids Promotional Sports – Three Point

The Three Point derives its rules of demo fight from the respective Disciplines/Styles, point fighting, light contact and kick light, but with some additional for our Kids security.

In TP point fight the rules are exactly the same: at every stroke carried to sign, the central figure decrees the stop and assigns the point to the athlete who has achieved it. In all other types of TP the regulation is identical to that of the disciplines of derivation but the central figure must decree the stop after an athlete has brought 3 consecutive techniques on the target even if these are blocked or arrive on invalid targets (for example to the arms). At this moment, the athletes return to the start position and the central figure gives the re-start.

The PRE-COMPETITIVE demo fight times, will be 2 round for 1 minute with 30 " rest.

The protections required for these disciplines are as follows:

- Open hand gloves for TP (Pointfight) and all the other usual equipment.
- 10 OZ "closed hand" gloves for TP (Kick-Light and Light-Contact) and all the other usual equipment.
- For all three specialties; helmet with the visor, also mandatory the bodice.

**In this division, athletes can start only in one discipline and in only one weight category.**

Athletes who already fought in Young Cadets (10/12) cannot register for Three Point discipline.

In agreement with the Medical Commission and in compliance with the health regulations in force, the required medical certificate is the one for recreational sports activities (up to at the age of 13)
